REPUBLICAN COUNTY TICKET.

GEORGE WILKINS For Treasurer— W. J. MANNING. JOHN L. HAZLEGROVE. J. L. PHILLIPS. Superintendent— WILFRED E. VOSS. B. F. SAWYER.

### GEORGE WILKINS, Office of County Clerk.

Just to remind you that the demoeratic candidates are resorting to all kinds of tricks in their efforts to gain votes, the matter of furnishing their own official bonds is being preached to the voters. This question has been settled by the board of county com-missioners and is not an issue in this

For years and years Willis J. Manning, the republican nominee for the office of county treasurer, has been paying into the treasury of Dakota real money in the shape of taxes. He is an old resident of Dakois concerned. He intends to remain in a more efficient county treasurer than Mr. Manning, and that he was defeat-Mr. Manning, and that he was defeated for re-election two years ago was obliging, diligent and withal would made an ideal official. certain quarters by persons who desired to pose as public benefactors and who worked on the passions and fessed that they were ashamed of to neglect the opportunity to retain their action and greatly regretted it; him in the office. Mr. Voss has been a that upon consideration they concluding the real, superintendent of schools. He that upon consideration they concluded that they had made a mistake. They are ashamed of the fact that they permitted themselves to vote for a candidate whose only plea for public favor was that he would bid more for the place than Mr. Manning and not been a side line nor a pastime for a little less money than the county and all of his time has sight injury to Mr. Sweinhart, who was not been a side line nor a pastime for a little less money than the county and all of his time has sight injury to Mr. Sweinhart, who was scratched and bruised. Mrs. Lohr was scratched and bruised. for the place than Mr. Manning and work for a little less money than the county had been in the habit of paying. Hundreds of cierks can be careful and consciencious attention

Somehow or other there is a no-ticeable lack of enthusiasm in cer-tain quarters over the welfare of the democratic candidates this year. Is it possible that they failed to "come across" as bounteously as they were urged to?

System in a neglected field is not the work of a few months, but requires earnest effort for a period of years. In the opinion of The Heraid, it would be poor policy for the school patrons of this county to change superintend-ents at this time. Mr. Voss has given us all that he possessed in the shape

TO THE VOTERS

I come to you as the republican candidate for the office of county superintendent, and it is my desire to be re-elected on the strength of my services if they have proven, in your judgment, of lasting value to you as well as to the schools of our county. My entire time of every month in

the year is given to the improvement of our schools in every respect, and no part of my time is spent away from the county seat unless out-oftown matters call me away. Of course you reasonably expect these thing of your county superintendent, but certainly it is not the record of all of them in the past. Feeling that my time is yours, I always stay at Dakota City, where you naturally expect to find me when I am wanted. All of my work, as far os possible has been made a matter of record in my office and may be inspected by anyone who desires to do so. Even the eighth grade examination papers are yet on file that any parent or guardian may satisfy himself as to whether I awarded the proper grade to his child or not. I have endeavored to do all for your school and children that my time, energy and conscience has permitted me to do, and shall continue to do so as long as you will conyour schools to me.

Leaving this matter to your kindest consideration, whether my services and school policies are to be continued two more years or whether another's policies are to be carried through the expensive experimental

Very gratefully yours, WILFRED E. VOSS. P. S.-Since an attempt has been made to revive the old bond question, I want to say to you that I have always paid for my official bond out

most careful consideration of the candidates for the office. The county clerk of Dakota county has duties more important than any exacted from any other office. He it is who is charged with the duty of recording all deeds, mortgages, releases and other instruments affecting the title to your real estate. He has the custody of all the deed and mortgage records of the county. In addition to this, he acts as the clerk for the board of county commissioners, writes the war-rants for all cash that is paid out by the county, files and looks after the claims against the county and is in po Republican Nominee for the sition to be of inestimable aid to the commissioners in keeping expenses down where they ought to be. Hereclerk, thus merging the two offices. In clerk, thus merging the two offices. In
this office as well as in the office of
the county clerk it is extracely the county clerk. the county clerk, it is extremely important that the work be done in a The statement was also made that it careful and painstaking manner. Rec- had little doubt but what it would be ords affecting the titles to considerable real estate are being constantly made in this office and carelessness and negligence in performing the duties imposed on the clerk of the district court would result in unfortunate and expensive litigation in future years. George Wilkins, the republic-

an nominee for county cierk, is a native of Dakota county, and comes from one of its most highly respected ta county; he is a fixture here. All from one of its most highly respected families. He is endowed with an exhis earthly possessions are in Dakota families. He is endowed with an ex- The wagon track west from the Foyce county; he has helped to make the cellent education, is a superior pen- bath house, on the Walker's island side county what it is. We have yet to man, an accountant of exceptional boar of a single instance where Mr. ability, and his years of experience in Aganing has fallen short or been dere the office of the cierk of the district net in his duty as a citizen or a man. court will enable him to handle the His personality is all that can rea- business originating in that office sonably be expected of any man. He with the utmost intelligence and dis-is a man who loves his home, and who patch. He is also familiar with the believes in owning one. He is in no deed and mortgage records in the ofsense a speculator, but a man of con- fice of the county clerk and can comservative tendencies. He believes in mence the work in that office with a Dakota county, and has been a be full understanding of its require-liever in the county for years. He is ments and responsibilities. By electa fixture here, and whether he is ing Mr. Wilkins as county clerk Dakos elected or not makes no difference ta county will not be making an exto him so far as his future residence periment, but will be placing an experienced person in charge of the Dakota county. This county never had most important office in the county. Mr. Wilkins is of a sunny disposition,

Wilfred E. Voss, who has so faithfully and efficiently conducted the ofprejudices of the voters sufficiently fice of superintendent of schools for strong to effect his defeat by a few the past two years, certainly deserves Many of the voters who were re-election at the hands of the voters induced to cast their ballots against of Dakota county, and it is our opinhim two years ago, have since con- ion that Dakota county cannot afford found in the country who would be which they merit, and all who are familling to do the work in the office milliar with his work agree that the for one-half of what is paid. But, do you want to put your public offices up at auction and give them to the highest bidder?

Milling to do the work in the high policies he has establised and along the lines of which he is working will work immense good for our public est bidder? system in a neglected field is not the

and has done his work both faithfully and well. We do not look upon his re-election so much as a reward for duties well performed as we do from a selfish standpoint. We believe that the people of Dakota county are getting much the better of the bargain and that we are fortunate in having

an opportunity to re-elect him. Politicians and would-be politicians evolve fearful and wonderful combinalons of candidates, and urge gre esque reasons why their particular combinations should meet with the approval of the voters. Very frequently voters are gullible enough to accept the carefully and cunningly construct ed arguments as facts, and do not bother to look for the jokers. Many a man has stepped out on an apparent ly firm and dry surface only to find that beneath it all is a quagmire which was artfully concealed. Political quagmires have the most plausible and pleasing exteriors, but are so rotton beneath the surface that it be hooves the voters to think seriously before they venture to leap onto them. Did you ever notice that the average politician does not waste very much time on the man who does his own thinking? Are you one of the thinking kind? Or are you one of the voters who permit political blather-skites who are in politics for revenue only to "shoo" you in the direction that will result in making them the most money?

The Herald would like to see J. L. Phillips, the republican nominee for county judge, elected. There are several reasons for this. Dan Heffernan s the greatest of these. The Herald believes that Dakota county is entitled to brains, dignity, sobriety and in-telligence in the office of county It believes that the county has been misrepresented long enough by the present county judge. not proud of having our officials become police court characters. We believe that the estates left widows and orphans should be directed by a clear, sober mind, free from political or per-sonal prejudices. We believe that Mr. Phillips ought to be elected.

The boy's appetite is often the ource of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers.

### SOUTH SIOUX CITY

H. T. Houghton, of Templeton, Ia has been visiting his sister, Mrs. M. R. Slocam, this week.

Robt. Pressey raised some fine rural potatoes on his Walker's island farm this year, some of them weighing one and a half pounds.

Rev. Samuel Light, of Randolph, oc-cupled the pulpit of the Presbyterian church on Sunday evening and preached a sermon on missionary topics. The frame work on the Onward mis-

sion was put up this week and the new house of worship for the north part of town is now beginning to loom up in fine style.

Miss Lotta Talbot, who was oper ated on for appendicitis, is now suf-ficiently recovered to be about again and will probably take up her school

duties next week.

John Shrove on Saturday brought a tion, I want to say to you that I have always paid for my official bond out of my own pocket, and intend to do so again.

### The Range that Burns All the Coal

Most likely you have been throwing away good coal every day without realizing it.

Because, with the ordinary range draft the coal is only partially burned in the fire box.

Usually the damper door is situated at one end or on the left side of the firebox, which makes your fire hot next the draft, and on

the other side it dies out, leaving good coal to be shaken down with the

You are not only losing fuel, but your cooking and baking is unsatisfactory, for you cannot get uniform heat. In the Monarch Range there are two damper doors, one in each end of the fire-box, opened simultaneously by one handle. They form a Duplex Draft, and thus two direct

currents of air strike your fire at the same time. Therefore, all the fuel is consumed and you get all the

heating power from the coal. In addition to this, there is a great saving of fuel effected by the air-tight construction of the Monarch.

No range made of cast iron and steel can possibly remain air-tight, but the Monarch is made of malleable iron and steel, which can be rivited to form air-tight seams that will ALWAYS remain air-tight.

Don't take our word for these things. Investigate them to your own satisfaction.
